

# Christmas CHEMIS-TREE

## Santa

**Santa's sleigh** is coated in durable epoxy resin, made by Olin and Hexion, to protect it from harsh winter weather as Santa travels around the globe.

**Santa's coat and hat** stay warm and cozy throughout his long journey, thanks to polyester fibers made from ethylene produced by Dow!

**Santa's Bag** made of stretchy and durable polyurethane from Rubicon, can hold every toy, big or small, for Santa's deliveries.

## Presents

**Ribbons and bows** made of nylon from Ascend Performance Materials, add the perfect touch to any gift!

**Wrapping paper** gets its holiday flair from vibrant color pigments produced by LA Pigment LP.

**Toys** like dolls and LEGOs come to life with durable plastics like polypropylene, produced by LyondellBasell.

## Christmas Trees

**Christmas trees** grow tall and lush, thanks to fertilizers from CITGO, keeping them vibrant throughout the season!

**Ornaments** are made of a light weight, shatter resistant plastic called styrene, produced by Americas Styrenics.

**Christmas lights** shine bright due to PVC made by Formosa, providing safe electrical insulation and giving your tree that special holiday glow!
